LOOK INSIDE

Washington County is relatively new to the craft taste-making scene; our first winery opened in the mid 2000's. Every year since, we have bloomed into a celebrated wine producing region in Maryland. Distinctive brews soon followed, distilleries are in their infancy, and we now have our first cidery. Many are award-winning!

Our topography is excellent for growing. The elevations in the Western mountain region of Maryland allow for well-draining soils; an advantage for sustainability. Our temperate climate provides opportunities for several grape and grain varietals, and is the secret to our success.

Change it to Our taste-makers craft some of the world's most beautifully balanced and vibrant wines, as well as aromatic and distinctive brews, ciders and spirits. The scenic vistas are breathtaking. Sip, swill, and soak in the beauty of the foothills of the Appalachians. Experience a truly memorable getaway as you work your way through this Grapes & Grains Guide.

Cheers!
